INTRODUCTION

The City of Hollywood’s Vision Statement is for us to become “South Florida’s top city to live, learn, work, invest, and play.” As one of the many municipal governments in South Florida, we recognize that this is a bold vision. This will not stop us from doing our best to realize it. That is why we’ve established our purpose and mission is to provide “a thriving community where quality living is available to all.” We have developed this Strategic Plan to help move the City of Hollywood toward a brighter future.

This Plan sets the direction and foundation for the work the City will undertake. The primary purpose of this document is to align all relevant municipal activities toward Mission and Vision achievement and to assist our city’s leadership in making calculated decisions while managing our resources.

Our leadership takes customer satisfaction very seriously and have therefore adopted a strategic planning approach to address the City’s needs. In doing so, we are setting a course of action that directly ties to our budget while establishing a performance measurement process for success. This Plan gives us confidence we are heading in the right direction.

HOW IS THE PLAN STRUCTURED?

1 VISION STATEMENT
   Our Vision Statement is an aspirational description of what the City is working towards for the community’s future.

1 MISSION STATEMENT
   Our Mission Statement describes what Hollywood provides. It also serves to support the Vision, inform the purpose and direction of our employees interactions with our citizens and stakeholders, and represents the context for our actions.

5 CORE VALUES STATEMENTS
   Our Core Values are the foundational and guiding principles on how we will serve the public.

8 STRATEGIC FOCUS AREAS
   Our Strategic Focus Areas are high-level categories that serves to advance the City’s Mission and Vision.

30 GOALS
   Each of our Strategic Focus Area is supported by the City’s primary goals in that subject area. The goals are to remain constant over time and should only be revised to reflect significant community changes or major priority shifts from the City Commission.

Our Strategic Plan’s Objectives are contained in our Strategic Plan Implementation Program (the Program), which is kept separate to help management focus on their responsibilities while minimizing the number of amendments to the Strategic Plan itself.

Fundamentally, we must be able to make decisions that are rooted in reality, but reality is constantly changing. Thus, the Hollywood Strategic Plan is considered a “living document,” which means it is subject to be updated as aspects of the Vision, Mission, Core Values and Goals change.

Accordingly, each Goal is supported by one or more Objectives that contribute toward achieving the Goal. These Objectives can be found in the Strategic Plan Implementation Program (the Program). The Program is a dynamic reporting tool, designed to assist the City Manager’s Office in overseeing each Department’s activities and to ensure they are fulfilling the Hollywood Commission established Mission and Vision Statement.

PLAN MAINTENANCE AND NEXT STEPS

The Strategic Plan and the Strategic Plan Implementation Program are living documents. To learn more about how we keep both plans relevant and up-to-date, please refer to our Maintenance Handbook.

The City Commission and City Management will review and report on the progress that is being made relative to its implementation on an ongoing basis. Keeping residents and stakeholders informed on the progress being made is fundamentally important to our success. Public reporting on the performance measures identified in the Strategic Plan Implementation Program is intended to promote accountability. Performance measures enable the City to monitor the progress that is being made within each of the Strategic Focus Areas.
