<b>Recyclables Collection:</b> Pursuant to Code of Ordinance, Section 50.05(B).	\$50	\$50
Note: All fees are based on the contract obligation and program administration costs and will automatically adjust annually based on contract and program administration costs.		

## PROCESS OF ESTABLISHING AND UPDATING FEES AND CHARGES

It is important that the Comprehensive Schedule of Fees remain consistent, accurate and up-to-date. User fees and charges will be reviewed as part of the annual budget process. City Departments and Offices may submit a request to modify existing fees and/or establish new fees. The Departments and Offices are responsible for the periodic review of relevant fees and analysis of proposed fee changes and additions.

Updates to the Fee Schedule may be triggered by the:

1. Office of Budget and Performance Management
2. Financial Services Department
3. Departments and Offices
4. City Manager's Office
5. External Forces such as legal mandates

During the annual budget process, Departments and Offices wishing to create a new fee or modify an existing fee will complete and submit a Checklist. The Checklist will include a set of factors that should be taken into consideration by the Department or Office proposing the new fee or fee change. The Department or Office will also be responsible for providing written justification for the new or revised fee. Proposed revisions must be approved by the Department or Office Director. Requested fee changes will be presented to the City Commission in the form of a resolution to amend the Schedule of Fees. The update will follow the requirements of the City Clerk with underlining and strikethroughs to indicate the revisions to the schedule.

Minor administrative and housekeeping of the Schedule of Fees will not require City Commission approval.

This schedule does not apply to taxes and assessments levied by the City, County, or other taxing authorities. The process noted above does not apply to the few City fees and charges that are assessed on an annual or bi-annual basis by an external consultant. However, updates to such fees will be reflected on the Comprehensive Schedule of Fees.

## Checklists to create or modify a new fee or charge.

Please make sure to answer the checklists questions and forward along with supporting documentation to Financial Services.

### 1. Checklist for the Creation of a New Fee or Charge:

DEPARTMENT/OFFICE: \_\_\_\_\_

1.1 What is the name and description of the New Fee or Charge?

1.2 Does the service benefit the community as a whole, individuals, or groups receiving this service or group of services? Explain the benefits. (If mandated by law, indicate so in your response).

1.3 What are the full costs of providing the service associated with this new fee or charge?

The following components can be used to calculate the full cost of a particular fee or service:

- Calculate the average full-time equivalent hours required to provide the new service
- Calculate the direct cost attributed to the time estimate including direct labor of the position or positions that typically perform a service. Remember to include Fringe benefits as part of the direct labor cost.
- Distribute the appropriate amount of indirect cost components to each fee or service. This can include: equipment, materials, contractual services, utilities, allocation costs, internal service charges, and other City-wide indirect costs.

The identified costs will provide a basis for setting the rate for the fee or charge. Attach your calculations to the Checklist.

1.4 Will the fee or charge pose a hardship on specific users? If yes, please explain in detail.

1.5 Do any other municipalities in the region charge the same or similar fee or charge? If so, how does the proposed fee or charge compare?

NOTE: Direct comparisons of rates to other municipalities can sometimes present challenges due to the wide differences in fee structures, definitions, and program types. The value of the comparison is to permit the City of Hollywood to develop a sense of market demands among comparable cities.

## City of Hollywood - Comprehensive Schedule of Fees

1.6 Will the establishment of the fee or charge for service create undue demands on City resources? For example, will the proposed fee or charge require additional personnel resources or other resources? Please explain.

1.7 Is this fee or charge currently charged by another City Department or Office? If yes, indicate which Department or Office provided the rates and explain how the proposed fee or charge differs?

1.8 Are there laws that regulate the proposed fee or charge? Explain and attach a copy of the applicable law.

1.9 What would be the effective date of the proposed new fee or charge?

NOTE: It is typically best to incorporate a new fee or charge at the beginning of an upcoming fiscal year. However, the timing of some fees may be dictated by regulatory rules, laws, or contracts.

1.10. Identify the appropriate person (name, email and phone number) to contact in case there are any questions.

## 2. Checklist for Modification of an Existing Fee or Charge:

DEPARTMENT/OFFICE: \_\_\_\_\_

2.1 What is the name and description of the Fee(s) or Charge(s) proposed for modification?

2.2 Provide an explanation for the modification. More specifically, are you adjusting the fee based on CPI, is the modification needed to provide consistency with other related fees, or is it a change or a correction? Please be specific.

2.3 What is the current fee or charge?

2.4 When was the last time this fee or charge was modified? Was it increased or decreased? How much was the last modification (dollar value)?

2.5 What is the current full cost of providing the service associated with this fee or charge?

TIP: The following components can be used to calculate the full cost of a particular fee or service:

- Calculate the average full-time equivalent hours required to provide the new Service.
- Calculate the direct cost attributed to the time estimate including direct labor of the position or positions that typically perform a service. Remember to include Fringe benefits as part of the direct labor cost.
- Distribute the appropriate amount of indirect cost components to each fee or service. This can include: equipment, materials, contractual services, utilities, allocation costs, internal service charges, and other City-wide indirect costs.

Identified costs will provide a basis for setting the rate for a fee or charge. Attach your calculations to the Checklist.

2.6 Do any other municipalities in the region charge the same or similar fee or charge? If so, how does the proposed fee or charge compare?

2.7 What is the effective date for the change of the proposed fee or charge?

2.8 Identify the appropriate person (name, email and phone number) to contact in case there are any questions.

## GLOSSARY OF KEY TERMS

**CHARGES:** These refer to a revenue source for a program that is attributable to a particular service provided. An example would be revenue for water and sewer fund based upon usage of water consumed by a customer.

**COMPREHENSIVE SCHEDULE OF FEE:** A schedule of all current fees and charges established for services or programs rendered by the City of Hollywood approved via resolution by the City Commission.

**DEPOSIT:** Refers to a portion of money used as security or collateral for the delivery of a service. The deposit serves to protect the City if the user breaks or violates the terms of an agreement. It may be used to cover damage to the property, cleaning services or replacement of property.

**FEES:** Typically a flat rate charged for the use of certain municipal services such as municipal pools, park rentals, and recreational programming.

**FINE:** A penalty paid by monetary means for a minor crime or any other offense. Typically used in reference to a criminal act.

**PENALTIES:** Punishment imposed for doing something against a law, rule or contract.

**RATE:** The amount of a charge or payment to a basis of calculation. For example, storm water rate, rate of swim lessons, parking meter rate, etc.
