ADDENDUM NUMBER 1

Date: May 25, 2010

FOR: Marina Docks B, C and D Repairs

FILE NUMBER: PW 09-011

ALL BIDDERS BE ADVISED OF THE FOLLOWING CHANGES AND OR CLARIFICATIONS TO THE ABOVE REFERENCED PROJECT AS LISTED BELOW:

Item 1: The Bid date has been extended one week and is now due on Friday May 28, 2010. The time and place for the bid submission remains the same.

Item 2: The Proposal Bid Form has been changed to include an Owners Contingency. Please replace the existing Proposal Bid Form with the attached Proposal Bid Form pages 1, 2, 3, and 4.

Item 3: RFI #1 from Shoreline Foundation Company dated May 19, 2010

Question 1: Please confirm the mailing address the bidder's proposal should be sent to.

Clarification: The City Clerks Office, Room #221, Hollywood City Hall, 2600 Hollywood Blvd, Hollywood, FI 33020

Question 2: Will all sub contractors be required to carry longshoreman insurance?

Clarification: No

Question 3: Please provide concrete specifications for the pre-cast pile.

Clarification: FDOT Specification 20614 or 20612 with concrete admixture Grace DIC or similar.

Question 4: Sheet S-7 Pile Driving Notes #1 indicates a test pile program; please provide locations, quantities, lengths required for the test program. Also, please verify production pile cannot be cast until pile lengths are established.

Clarification: The 1st pile North West corner of pier.

ADDENDUM NUMBER 1

Question 5: Can industry standard pre-cast, pre-stressed pile be installed in lieu of the pres-cast pile as indicated? If so please provide strand and wire details.

Clarification: Use reinforced precast pile in lieu of pre-stressed pile.

Question 6: For bidding purposes, are we to assume that the existing utilities when raised will be sufficient for reinstallation and that no new conductors will be required?

Clarification: That is correct

Question 7: Please verify that the new utility support brackets should be spaced at 48".

Clarification: Yes, 48" O.C. to meet building code requirements.

Question 8: Can cast-in-place concrete be used in lieu of the proposed asphalt approach ramp?

Clarification: Yes, concrete is to have a rough broom finish with a 2% cross max slope for drainage.

Question 9: Will the contractor be required remove the existing fence/gates at each dock and re-install them at the new elevation? Can you provide a detail or description of the post embedment?

Clarification: Yes, contractor is to remove and re-install the existing fence and gate with an 18" drill hole, 36" deep.

Question 10: We respectfully request that the bid date be extended.

Clarification: Yes, see Item #1 above.

Item 4: RFI #1 from Coston Marine Services, Inc. dated May 19, 2010

Question 1: The plans call out a 12" x 12" precast concrete pile. Can a 12" x 12" prestressed concrete pile be used instead and what would the reinforcing requirement need to be for that type pilling?

Clarification: See Item #5 above.

ALL OTHER TERMS, CONDITIONS AND SPECIFICATIONS SHALL REMAIN THE SAME.
