**TIPS TO DETERMINE GALLONS-PER-FLUSH VOLUME**

Look for marks or labels near the toilet seat hinge. Conversions for toilets with metric units: 22.73 liters = 5 gallons per flush (gpf), 15.01 = 3.5 gpf, 6.1 liters = 3 gpf. If no markings are visible, check the underside of the tank lid or the tank's inside back wall for a date stamped in the porcelain. Toilets produced before 1985 are 5-7 gpf, 1985-1991 are 3.5 gpf. Toilets made after 1993 are 1.6 gpf and NOT eligible to receive a rebate.

**REBATE AMOUNT**

Rebates are for the pre-tax cost of the toilet up to \$100.00 per toilet; maximum 2 toilets per single-family account. Multifamily and commercial accounts must receive pre-authorization for more than 10 rebates. Toilets that cost less than \$100.00 will be fully rebated for the pre-tax purchase price. Toilet purchase costs exceeding the rebate value are not covered and must be paid by the applicant.

**VERIFICATION OF INSTALLATION**

The City of Hollywood reserves the right to inspect to verify the installation of the new HET model(s) submitted for this rebate program and your signature indicates agreement to a post-installation inspection. Inspections will be scheduled Monday through Thursday.
